

FG • Oct 1 • "Where are you?" (Red Barn Ranch)

Format: Trending fake-text format ("Where are you?" → the place is the answer). 9.5s loop. **Footage:** RBR drone clips from Drive (5sec_RBR_Flyover , 5sec_ranchdrive_fly , 5sec_reversefly_rbrdrive). They're 720p horizontal, so the vertical crop is a little soft. The full-resolution originals would be sharper. **Heads-up:** this footage is spring (green grass, blossoms). It's fine for "escape" content. Fall footage would fit October trends better.

Sound (add in the Instagram app, from the posting account)

1. **The "Where are you?" / "Home" trend sound.** Search "where are you" in Reels audio, original audio. This is the matching trend.
2. **"A Simple Trend"** (travel B-roll with location text, original audio).
3. Business-safe fallback: a calm acoustic track from the Meta Sound Collection. Start the sound so the beat lands at 1.2s (second bubble).

Story stickers (add in-app)

- Poll over the drone shot: "Would you unplug here?" → "Yes please" / "Take me NOW"
- Link sticker → booking page, bottom-middle (above the reply bar)
