

14-Day Viral Plan: Oct 1-14, 2026

Goal: daily videos for all 3 accounts, aiming for 1M+ total views in 2 weeks. **Mix:** a Story set every day (dominant) plus a Reel or Trial Reel cut from the same footage. **How the numbers get there:** Stories reach existing followers. The million comes from Reels/Trial Reels reaching non-followers. So every Reel is built for **sends** (a "send this to..." or "tag who..." line) and **rewatches** (short and loopable). Hook A/B tests run as Trial Reels; the winning hook gets reposted as a regular Reel.

Rule: anything marked *[confirm]* is a guess about a property, price, availability or Carissa's life. Nothing marked that way gets published until she confirms it. Dollar amounts in the MBM hooks ("\$4", "under \$30") are templates. Use the real prices.

Trend sources: `knowledge/trends-2026-09.md` . Audio defaults to **Business-safe original-audio sounds** until each account's type is confirmed. Check every sound in the app from the posting account before using it.

Filming (the only part Carissa does)

Two batch shoots per account, about 45 minutes each, one per week (Sep 30 and Oct 7). Film everything **vertical, 4K 30fps, HDR off**, 3-6s per shot, steady, window light where possible. Upload the raw clips and I handle the rest.

@minibarnmarket (MBM)

Batch shoot list (week 1): dusty find at pickup (car or estate sale) · the same piece cleaned, styled and price-tagged · hands holding 6-8 new finds one by one · 7s slow pan down the barn aisle · packed market-day crowd / doors opening · empty truck at the end · amber glass or copper in window light · a quilt on a ladder · mums on the porch · 3 seconds of you reacting with delight to a find · wrapping a sold item (for ASMR).

13	"W-2 and thinking about a short-term rental? Watch this before you buy" (education)	CPA disclaimer plus resources	voiceover

Day	Reel / Trial Reel (hook)	Story set (sticker)	Audio
14	Repost the best performer with a new hook	"Reasons to follow / unfollow me"	winner sound

Daily routine once footage is in

1. I cut the Reel (plus 2 hook variants for Trial days) and the Story set from the same clips.
2. I deliver: the videos, cover frames, a caption (hook and keywords in the first 2 lines, 3–5 hashtags), the sound to add in-app and its start point, and the stickers to add.
3. Post Reels during each account's peak Insights hour. Post Stories in 2–3 drops through the day.
4. At 24h and 48h, log the numbers in `tracking/results.csv`. Winners get a new hook and a repost; formats that flop get dropped.
