Sound: search "Money can't buy you happiness" in Reels audio and pick the original-audio version. Line the first text change up with the first beat. **Story:** share the Reel with a poll: "Happiness or Wi-Fi?"

Oct 3: "This is your sign" (7.5s, silent: add sound in-app)

Trend: "This is your sign" (Later, 9/25): B-roll, a text sign, then a call to action. Built to be sent to a group chat. **File:** 2026-10-03_this-is-your-sign_reel.mp4 + cover

Sound: a cozy acoustic track from the Meta Sound Collection, or a "This is your sign" trend audio if it's available to this account. **Story:** the Reel plus a link sticker to October availability, and a question box:

"Who are you bringing?"

Footage note: both use the same 720p spring drone clips as Day 1. After 3 days, viewers will recognize these shots, so new footage (especially fall, or Mountain Retreat and IMM) is needed for Day 4 onward.
