

Proof of Concept: 4 Videos from Your 5 Clips (Sept 27, 2026)

All four use the house look (crisp, vivid HDR style), 1080×1920, with text inside Instagram's safe zones. Narration is an AI voice ("af_heart") as a demo. **Your own voice will perform better:** people connect with the real you, and Instagram rewards original audio. Record a voice memo and I'll cut it in the same way.

1. MBM Reel, narrated: "The little red barn" (9.8s)

Idea: curiosity hook, then social proof (the line), then an invitation. Built to be *sent* to a friend. **Narration:** "There's a little red barn... and on market mornings, it doesn't stay quiet for long. Grab a coffee... and maybe come early." **On screen:** hook "The line for this little red barn..." · word-by-word captions · end card "Send this to your market buddy" **Caption idea:**

There's a little red barn... and it doesn't stay quiet for long ☕ Tag the friend you'd bring 📌

**minibarnmarket #shoplocal
#smallbusiness #marketday #redbarn**

Sound: add a soft acoustic track in-app at about 15–20% volume under the narration (Audio → mixer).

2. FFF Reel, narrated: "What financial freedom actually looks like" (18s)

Idea (interpretive): reframes "financial freedom" from luxury to time and simple things. That's a contrarian hook that people save and send. Greenhouse → garden → swing → the market → evening lights. **Narration:** "Financial freedom was never about a yacht. It's slow mornings... and things that grow. It's being there for the little moments. It's building something that's yours. And evenings that end like this." **Caption idea:**

Financial freedom was never about a yacht. It's slow mornings, things that grow, little moments, and building something of my own. What does it look like for you? 📌

financialfreedom #slowliving #simpleliving #intentionalliving #smallbusinessowner

3. FFF Reel, text only: same story, no voice (10.9s, silent for in-app sound)

Why: an A/B test partner for #2. Post one as a regular Reel and one as a **Trial Reel**, then keep the winner's style. Cuts land on a 110 BPM beat. Text: "Not a yacht." / "Slow mornings." / "Little moments." / "Something of my own." / "Evenings like this." **Sound:** "Money Can't Buy You Happiness" (original audio, rising in Sept 2026) fits the message. Or any calm trending sound.

4. MBM Story set: 3 frames (Stories = your main format)

Frame	Text	Add in-app
1 (4.6s)	"Market morning at the little red barn"	Poll: "Were you here?" Yes / Next time!
2 (3.3s)	"Coffee in hand. Line already forming."	Location sticker
3 (3.6s)	"Who's coming next time?"	Question box, or a countdown to the next market
Slightly slowed for a calmer feel. Natural sound kept.		

Please confirm before posting

1. **The swing clip shows a child** (from behind). OK to post publicly?
2. **The woman with the coffee.** Is that you? OK to feature her or them?
3. **"Market mornings"** and **"come early"**: accurate for how MBM works?
4. **FFF lines** "It's building something that's yours" and "being there for the little moments" speak for you personally. Do they sound like you?
5. **Which accounts are Business vs Creator?** That decides which songs you can add.

Left out on purpose

- The end of the market clip (10–13s) shows a **license plate**, so it isn't used.
